Enrollment/Free and Reduced Lunch is 2010-11 RSP Projections							

Notes:  
Projection numbers are based on where students reside within a school boundary, and do not consider students who transfer from the assigned area to another school.

Projections include district students attending a Columbia Public School in grades 6-8.

This scenario provides a balanced Free and Reduced Lunch Enrollment and utilizes the capacity potential of the intermediate schools.

Free and reduced lunch percentages are based on 2010/11 school year data. These percentages are not projected for future years.

The capacities shown are desired school capacities provided by Columbia Public School District.
